

MUZE

TEXTILE
PRINTING

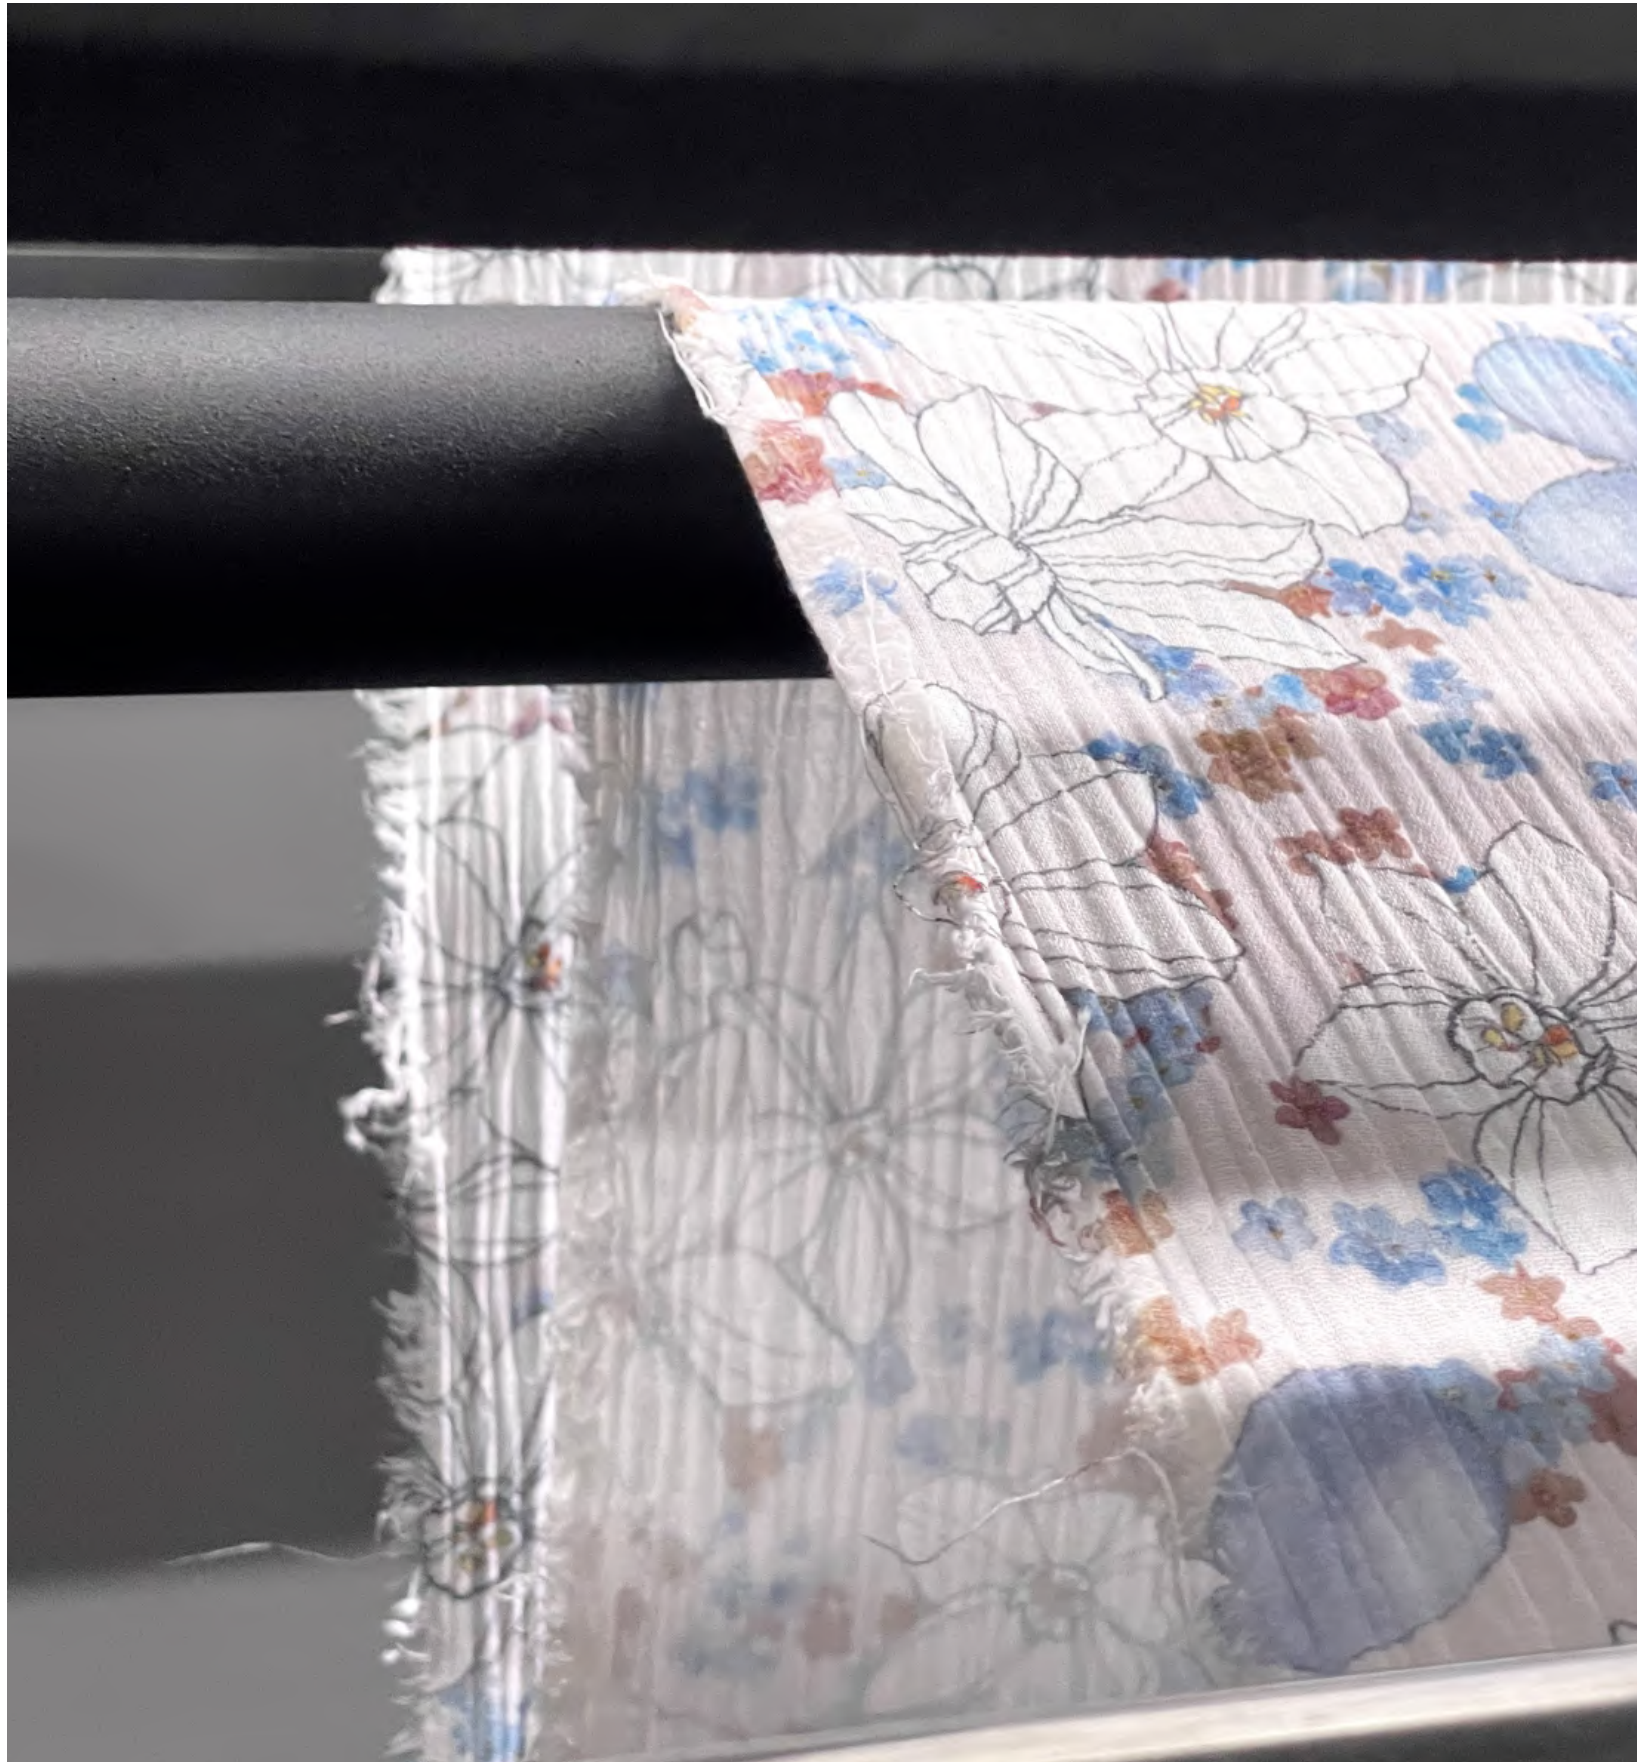

Your partner for custom printed fabrics

We are printing house for sustainable fabrics on demand.

We are a Latvian company with production located in Riga. Our specialization is digital textile printing.

We print on natural and synthetic fabrics for clothing, swimwear, sports uniforms, children's products, interior design, and furniture. Using direct printing technology and sublimation.

WHAT WE DO

We offer digital printing services for fashion and home textiles. Working with a wide range of fabrics, with eco-friendly processes, and contributing to sustainability throughout its value chain.

Our Know-how allows us to meet the specific needs of our clients.

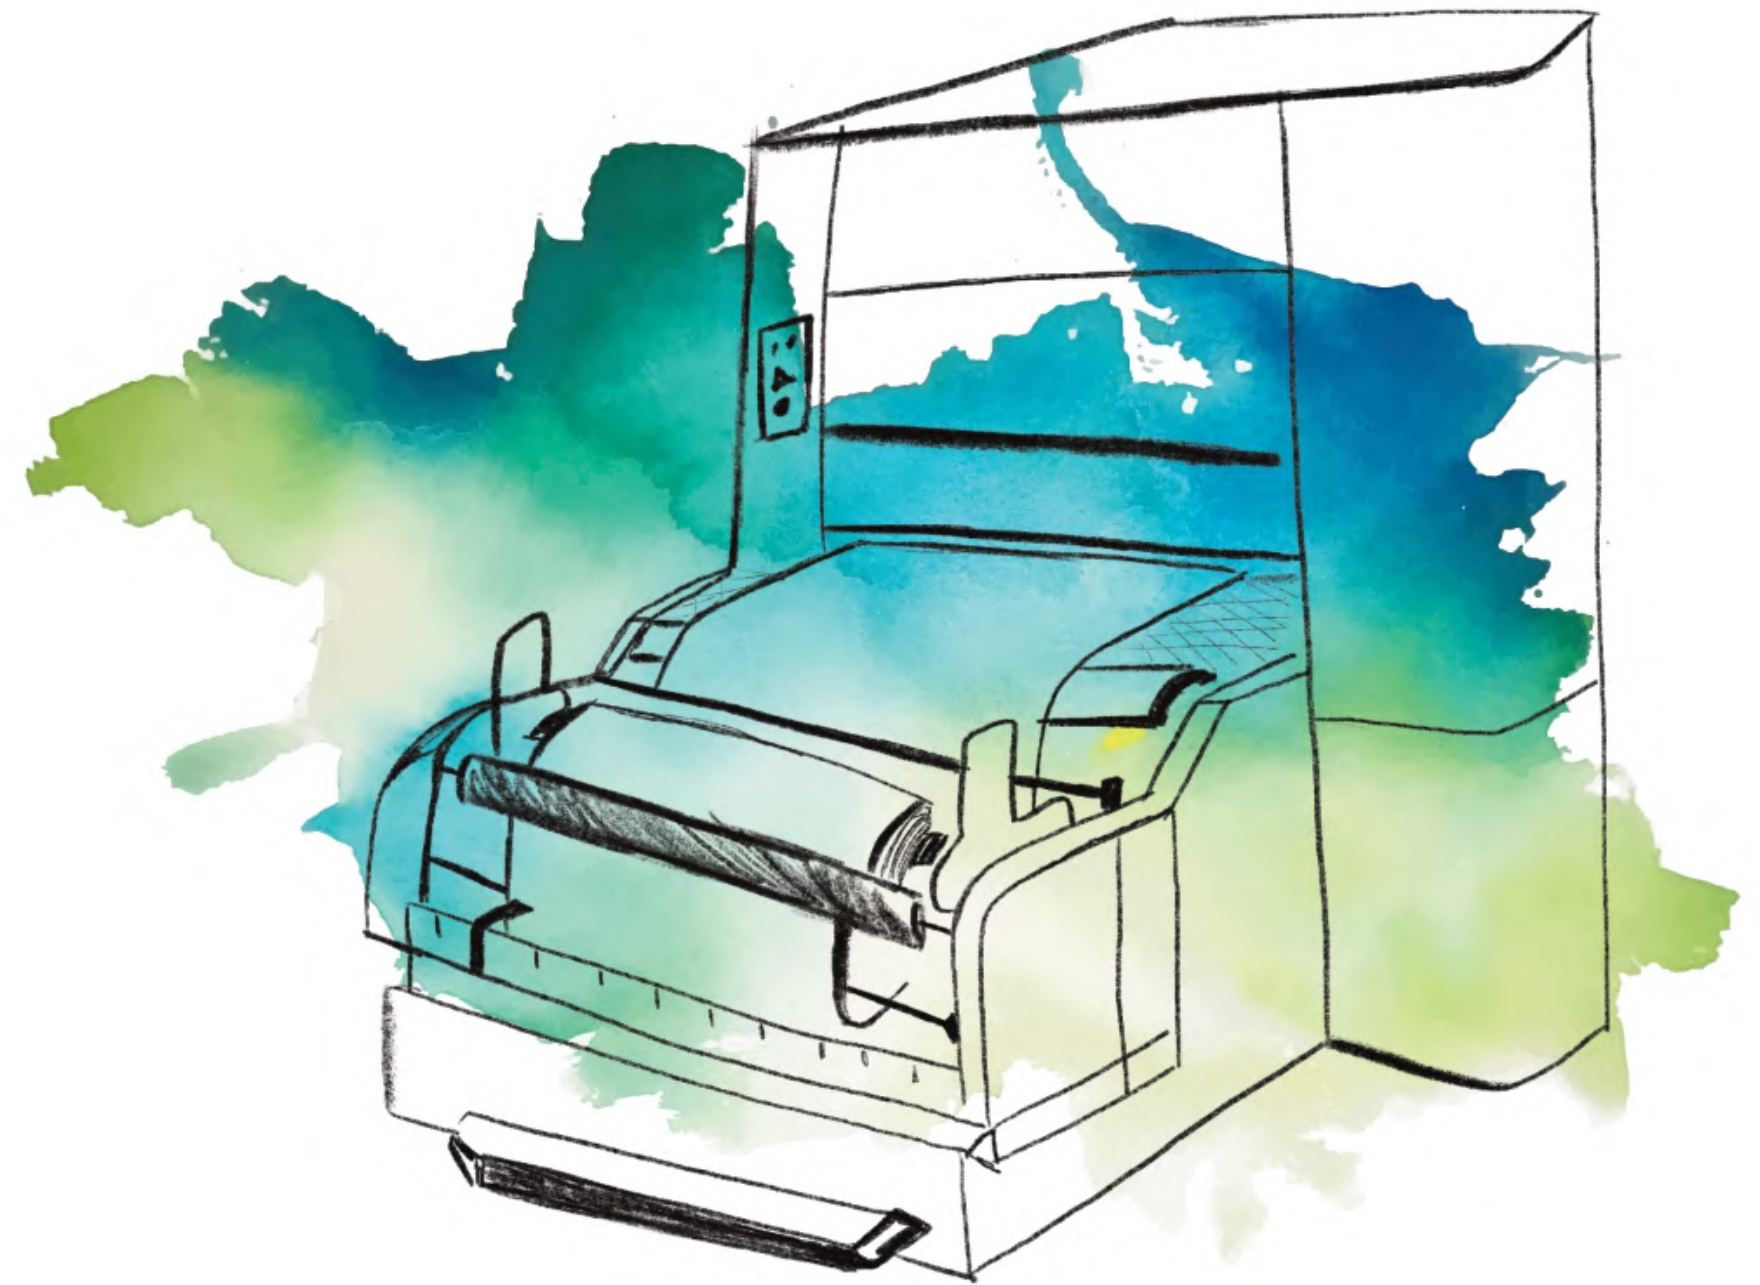

Textile Printing made easy and friendly, for you and the planet.

We combine our expertise with the consumer's wishes and needs. Constantly working to be at the forefront of new trends.

We work hand in hand with designers and brands in different stages of their growth, offering the possibility of printing short runs, as well as big amounts.

WE OFFER

Sampling and color matching

We know how important colors are! Before printing a run, print a sample strike-off to see how well the colors match. If necessary, we are ready to help with a finer adjustment of colors.

On-demand production

Don't want to make more than you need? Print only the quantity of fabric you need. Take control of your supply chain, shorten lead times, and bring production closer to you.

With the benefit of producing in Europe.

Made
in **EU**

We pay special attention to environmental sustainability at every step of our processes. From our operation to the materials we use.

Direct to Fabric Printing

One-step process to every fabric printing aspect and domain. a complete solution for printing, softening, and drying in a single step.

Without the need for external process steps, enabling you to achieve the best results from PFP (Prepared-For-Print) to finished digitally printed fabric faster than ever.

Zero water pollution

Our process is waterless and in the most smart and sustainable way, allow a wide range of applications. From fashion, and baby textiles to home décor, providing high quality prints, vivid colors, and great hand-feel to multiple fabric types.

No harmful chemicals

We pay special attention to environmental sustainability at every step of our processes. From our operation to the materials we use.

We use water-based inks GOTS 6.0 certified. Making sure that no harmful chemicals are used in the printing process and in the textiles we used.
