

We have a no-compromise policy when it comes to quality. Extensive research, full fledged quality control and latest technology is provided by us to enhance products and service. The dynamic world of the fashion industry has made us bank upon our core competence to learn, adapt and deliver quickly.

We have specific instruments in our lab to check:

- Cotton fibre (HVI)
- Fibre contamination (FCT)
- Percentage of uster (Uster tester)
- Yarn elongation (Uster tensorapid)

Much more stringent manual testing is conducted to maintain the quality as per international norms.

Our customers are our assets!

about us

INDO INDUSTRIES is part of a specialized group of manufacturers and exporters who not only believe in Good Quality products but also Excellent Service. We deal in various types of Textile products, especially 100% Cotton Yarn. We are proud to be accredited by the Government Of India as a "Recognized Star Export House".

Indo's impressive Pricing and Timely Executions give us an edge over our fellow Competitors.

Over the last 23 years, we have created a global presence in more than 45 countries, namely, the USA, the UK, China, Brazil, Germany, Canada, Australia, New Zealand, Pakistan, Russia, Portugal, Spain, Poland, Italy, Turkey, Bulgaria, Croatia, Peru, Columbia, Egypt, Morocco, Tunisia, Bangladesh, Philippines and many more.

Indo's complete control over the product's journey from conception to delivery, implementing systems to reduce errors and increase inventory efficiency has brought satisfaction to our New and Existing Customers. Our Customers have remained Loyal to us as we have been consistently meeting their Quality Requirements. The ultra-precision machines based on accuracy and repeatability at Indo speak for themselves.

We welcome you to the Indo Quality of Life!
